Self-check — Define — Customer Requirements and the Problem Statement

Tick each item you have completed. Any blank is a gap to close before your group presents at the debrief.

#	Criterion	Evidences	✓
1	Five VOC statements are recorded in the customer's own words, quoted from the data.	DEFINE	
2	Every CTQ carries both a number and a unit.	DEFINE	
3	The problem statement names what, where/when, since when, how big and the impact.	DEFINE	
4	The problem statement contains NO solution.	DEFINE	
5	The SMART goal has a metric, a baseline, a target and a date.	DEFINE	
6	The scope table has entries in BOTH the in-scope and out-of-scope columns.	DEFINE	

Debrief check

Every group can show five VOC statements in the customer's own words, five CTQs each carrying a number and a unit, and a problem statement containing no solution.
