Self-check — Measure — Map the Process and Spot the Waste

Tick each item you have completed. Any blank is a gap to close before your group presents at the debrief.

#	Criterion	Evidences	✓
1	The SIPOC has all five columns filled and the Process column holds 5-7 steps only.	MEASURE	
2	Every process step on the map carries an observed time.	MEASURE	
3	Every step is marked VA or NVA with a one-line justification.	MEASURE	
4	Each data column is correctly classified as discrete, continuous or categorical.	MEASURE	
5	All eight DOWNTIME rows are complete, each tagged to a process step and a count.	MEASURE	
6	The baseline figures are written down: average wait, longest wait, % over promise, remakes.	MEASURE	

Debrief check

Every group can show a SIPOC with all five columns filled, a process map with every step timed and judged VA or NVA, a complete DOWNTIME tally tied to evidence, and the written baseline figures.
